

Everybody here  
has basically

offended &  
slept

with everybody else.

Our living  
quarters

burrowed  
out of existing

underground  
lava tubes

are sufficient  
buffers

from ionizing  
radiation

& wanting to  
kill each other

in our sleep.

Human beings  
as a whole

gave up long ago

a failing  
ptolemic geometry  
for

the uncertain future  
we inhabit

under an unfixed sky

courtesy of  
out of spec

atmospheric harvesters

& standard issue  
pressure suits.

The machines  
give us their labor

& are replaced

& the garden  
grows &

dies in our mouths.
